

Job Title: Creative Project Manager

What is POSaBIT?

POSaBIT is a well-funded FinTech startup, working exclusively within the cannabis industry. We build unique solutions to create new and better financial services and transaction methods. Our home base is just outside Seattle (Kirkland, Washington).

Top Reasons to Work with Us

- Our target markets are growing at 25X over the next three years.
- Being part of this new industry, customers need our innovative solutions making us uniquely positioned to capitalize on a once-in-a-lifetime market opportunity.
- We have an undeniable positive impact on our customer's business, providing tremendous value and solving critical pain points.
- We offer a fun, dynamic workplace staffed by passionate individuals who are committed to achieving something special.
- Your contributions will be visible and be impactful!
- Proactivity and risk-taking are encouraged and rewarded.

We're hiring a Creative Product Manager to work on product development for our Payments and Point of Sale solutions. You will collaborate with the product management team and engineers to deliver new products, plan short and long-term roadmaps, and orchestrate wide-scale product implementation and rollout for cannabis retailers nationwide.

Role Responsibilities

- Deeply understand product functionality and limitations
- Conduct market research in new and emerging markets
 - Specifying and overseeing the research needed to determine requirements
- Solicit ideas and feedback from new and existing customers
- Illustrate design ideas using storyboards, process flows and sequence diagrams
- Coordinate bringing new products to market and develop timelines with the accounting, sales, marketing, and account management teams
- Craft product release notes, and manage sending them out to customers in a timely manner
- Internal employee product education and training

What you Need for this Position

- A minimum education level of: Bachelor's degree
- 1-3 years experience assisting in Product Management, of various complexities
- Tech savvy
- An eye for design - Adobe expertise a plus
- Strong organizational skills
- Embrace ambiguity and change
- Written communication skills
- Strong collaboration, communication, and decision-making skills to gather, organize, share, and rally multiple groups around an objective
- Detail oriented
- User-centric
- Team player
