

Job Title: Ruby on Rails

What is POSaBIT?

POSaBIT is a well-funded FinTech startup, working exclusively within the cannabis industry. We build unique solutions, leveraging cryptocurrency and blockchain technology, to create new and better financial services and transaction methods. Our home base is just outside Seattle (Kirkland, Washington).

Top Reasons to Work with Us

- Our target markets are growing at 25X over the next three years.
- Being part of this new industry, customers need our innovative solutions making us uniquely positioned to capitalize on a once-in-a-lifetime market opportunity.
- We have an undeniable positive impact on our customer's business, providing tremendous value and solving critical pain points.
- We offer a fun, dynamic workplace staffed by passionate individuals who are committed to achieving something special.
- Your contributions will be visible and be impactful!
- Proactivity and risk-taking are encouraged and rewarded.

Role Responsibilities

- Writing software as a member of a small, fast moving engineering team.
- Develop features both individually and as part of a team.
- Participate in estimating and technical design of new features, including creation of design diagrams, when appropriate.
- Work with product management to help flesh out requirements.
- Participate in software development best practices, including code reviews, post-mortems, stand-ups, etc.

What You Need for the Position:

- A minimum education level of: B.S. in Computer Science, Computer Engineering, or related field; or, equivalent experience.
- 3-5 years of relevant engineering experience (SaaS, financial systems, and/or startup experience is a plus).
- 3 years or more years of front end web development working with a css framework (bootstrap or similar)
- Working knowledge of javascript.
- 1 year working with a Ruby on Rails backend with experience in either haml or erb.
- Experience with mobile first design.
- Experience with a financial transactional system is strongly recommended.
- Working knowledge of relational database systems.
- Strong problem solving and analytical skills.
- A self-driven and detail-oriented mindset.

- Experience with Github source control, bug tracking, and at least one agile methodology.
- AWS or other cloud based hosting experience, a plus.

What's In It for You

- You get to work in a fast growing industry experiencing rapid growth
- Opportunity to make a significant impact
- Stock options, benefits (medical, dental, vision, 401k)
- Medical, Dental and Vision coverage
- You can bring your dog to work!
